Sherry Pruitt M.Ed.,ET/P

Ms. Pruitt sees children, adolescents, and adults. She teaches clients about their neurological disorders using PowerPoint presentations. She uses the knowledge from years of clinical experience as well as the experiences from raising her own children and dealing with their neurological disorders to assist individuals with their neurological disorders. Ms. Pruitt advises families on the educational impact of neurological disorders on learning, behavior, and socialization. She assists parents in learning alternate skills for raising children who have not responded to traditional parenting strategies. Ms. Pruitt co-leads two groups for adolescents and young adults which promote social skills and transitioning into post secondary placement as well as into adulthood.

Vicki Stein DSc,LCSW-

Dr. Vicki combines her skills as a social worker with her dietary knowledge to educate clients about the benefits of treating mental health and neurological issues with nutrition and supplements. She combines traditional psychotherapy, nutrition education and body work in her practice, providing clients with a holistic approach to healing.

Additional resources:

Erin's Hope for Friends

[Http://erinshopefor friends.org](http://erinshopeforfriends.org)

E's club is a place for teens aged 12 to seniors in high school with high functioning autism spectrum disorder. They provide a fun and safe social environment with activities and regular social outings.

Parent Mentors

Parent mentors are available to help guide other parents of children with special needs through the Cobb County public school system. The website is cobbK12.org/specialeducationparentmentors.
